IP Programmable Key Modules

Improve Call Handling with Intuitive Programmable Key Modules

Mitel® IP Programmable Key Modules (PKMs) extend the capability of the Mitel 5224, 5235 and 5324 IP Phones with additional buttons. Ideal for receptionists, departmental administrative assistants and people who require additional personal keys, PKMs can be easily programmed through the phone and can be used to monitor and manage multiple lines beyond the original capacity of the phone.

Improve Call Handling

Administrative assistants can use the 12- and 48-button IP PKMs to monitor and manage multiple lines beyond the 24-line capacity of the 5224, 5235 and 5324 IP Phones. The 12-button IP PKM adds 12 keys while the 48-button IP PKM adds 48 additional keys with one module or 96 keys with two modules.

A Mitel IP PKM Interface Module added to the back of the phone allows the 12- and 48-button IP PKMs to easily connect, without the need for an additional local area network (LAN) port.

When used in either an enterprise or small business environment, the IP PKMs improve call handling for both employees and customers.

Easy to Program

With the PKMs, 12, 48 or 96 additional keys can be easily programmed as feature keys, speed call keys, extension keys, direct station select (DSS) keys or line appearance keys. Each key has an associated indicator light which gives the status of that extension or programmed feature. Personal keys can be easily programmed through the phones themselves or using the browser-based configuration tool.

Physical Dimensions

IP PKM 12

Size: 6.75 in x 2.25 in (17 cm x 5.7 cm)

Weight: 0.6 lbs (0.3 kg)

IP PKM 48

Size: 7.25 in x 9.25 in (18.4 cm x 23.5 cm)

Weight: 2.1 lbs (0.9 kg)

Voice QoS

IEEE 802.1 p/q

Power Consumption

IP PKM 12 1.3 W

IP PKM 48 1.7 W

Powering Options

5224 and 5235 IP Phones:

- Powered via the adapter power port or powered over Ethernet with a power source compliant to IEEE 802.3af
- 48 V DC Ethernet power adapter available, purchased separately (if required)

5324 IP Phone:

- IEEE 802.3af Power over Ethernet (PoE) support from the phone's power source

System Requirements

- Mitel 3300 IP Communications Platform (ICP) release 9.0 UR1 or later
- Mitel SX-200 IP Communications Platform (ICP) release 4.0 UR5 or later

Supported IP Phones

- 5224 IP Phone
- 5235 IP Phone
- 5324 IP Phone
